### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carl Reed on November 8, 2007.

The application has been amended as follows: in claim 1, line 6, after "region", deleted "to be" and in line 13 after "region", deleted "to be".

#### ***Allowable Subject Matter***

Claims 1-5,7,8,12 and 13 are allowed.

The following is an examiner's statement of reasons for allowance: patentability resides, at least in part, in the shielding plate assembly, comprising: an optoelectronic component; and a shielding plate body for shielding said electrical component, said shielding plate body having a second region inserted through a cutout of the metallic structure, wherein said second region includes a discontinuity through which an emission of electromagnetic waves produced within said shielding plate body occurs; wherein at least one of the plurality of wall sections of the first region of the shielding plate body includes a plurality of elongated openings being slot antennas through which electromagnetic waves produced within the shielding plate body are coupled out of said shielding plate body such that the emission of the electromagnetic waves through the

discontinuity is reduced and wherein the electromagnetic waves coupled out through the slot antennas are contained by the metallic structure, in combination with the other limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
